reviewed on best game software will help you to find the best game software that suits your requirements. Editor's Picks Mario Kart 8 Player's Guide Rated: Approved Author: guywithheadphones Modified on: Tue, 6 Jul, 2015 at 9:16 AM New or returning players might be confused by the many options available in Mario Kart 8. This guide aims to help you navigate these options to make sure you're using the full potential of the game. Real-world racing realism Although Mario Kart 8 is a more realistic racing game than most Mario Kart games before it, it still has a few tropes that come from the series. First, the ability to use items is only available when you've earned enough stars, though the number of stars you need to earn per item will vary depending on which item it is. For example, three stars is required to use a Boost. Second, if you crash into an item at a certain speed you'll grab it and continue to the next corner at the same speed. The best way to defend against this is by boosting, which will allow you to slow down on a corner to avoid an item. Avoiding items and enemies You can't avoid items in Mario Kart 8 by using boost or wall hopping,

because you only have a five-frame window before
you

System Requirements:

General: - NVIDIA GeForce GTX 760, GeForce GTX 660 or better - AMD Radeon HD 7870, Radeon R9 270 or better - 2 GB VRAM - Windows 7 or higher - 64 bit OS - USB 2.0 compatible keyboard and mouse - 12 GB of free space on hard drive - 3 GB of available graphics memory (over 3 GB of memory will not be detected or will cause a crash) - 64-bit installation - DirectX 11 or higher - Supported games require
