remover CYACO is a new cloud based
application that simplifies and streamlines
the process of granting access to digital
content. CYACO provides traditional online
access and e-mail usage to printable, online
templates. It then allows users to easily
deliver content to these email addresses and
finalizes the business process for engaging a
new client. CYACO allows easy creation of
a custom document and the assignation of
the user the appropriate access level to the

document (owner, manager, employee or other level). CYACO then sends these user and document rights to the user's recipient, whether they're managing an email or on the EDMS. Using this approach, CYACO eliminates the need for printable documents and the associated printing and logistics. It also allows companies to provide access to digital content to their employees and customers, quickly and easily, at little overhead. CYACO has been designed for ease of use and for maximum effectiveness. CYACO is a new cloud based application that simplifies and streamlines the process of granting access to digital content.
