This is my first post so, hope I d/l correctly. I had a problem downloading the soviets patch. From goole, "error opening archive". when I try to d/l a file, it tries to d/l it but it d/l's it as error. I switched it to windows d/l manager and from there it was fine. 1) When I then d/l the soviets patch from megaupload (I am talking about 1.2) it is fine. 2) When I try to d/l it
