He was one of the first players to wear glasses instead of a contact lens after discovering athletes wore more contacts. Nelson studied medicine but decided to go into dentistry instead. He had a practice in Rock Island, Illinois, where he lived. He and his wife, Eloise, had two children. He was diagnosed with retinitis pigmentosa which causes vision loss. He lost sight in his left eye at the age of 30 and in his right eye at the age of 33. David became an avid cyclist because his father had an interest in cross-country skiing. He rode in the National Mall in Washington, DC. David died in Rock Island of congestive heart failure. He had just turned 65. The cause of death is listed as

What's New in the?
