I'm already using so many products and I tried all of the pre-production ones that came through! I did like the looks and the feel of it (because I could hold it and not drop it). but I have to say, "Oh yeah, but this doesn't make me cry.". If you have any tips for cooling down an extra big eye, please share! Add that for your puffy eyes and having that under eye puffiness under your eye, that is how you know if your lashes look real. Sometimes I've had people tell me they thought my lashes were real, and I told them they looked that way because I had thick lashes! I definitely did not think they were fake at all. Use sunscreen. False lashes may feel extra bulky or heavy and could lead to tearing (which is quite painful) or dehydration. If this occurs, put on the same amount of mascara you would normally. If you absolutely want to rock something completely different from the norm (especially if your hair isn't long enough to go over it), go ahead. This will help to keep you in a fashionable mood and your hair in a controlled environment. If you're newly single, add a smoky eye makeup to your eyes. Adding a pop of color, such as a dark liner or eye shadow and a few extra layers of mascara can really get you noticed! If you are just feeling a little more laid back and want a fun, playful look, keep it simple with a glossy, nude lip and soft eyes. Another thing to consider is your eyebrows. You can never go wrong with darker
