I tried with \$dir =

Yii::getAlias('@frontend/web/unbundles/test/',false); if (\$dir){ echo " folder exist"; } else{ echo "folder not exist"; } but its not working can anybody please tell me how to check it A: You can use Yii::getAlias() with the APP_PATH key \$path = Yii::getAlias('@frontend/web/unbundles/test/', false); if (\$path) { echo 'The folder exists'; } else { echo 'The folder does not exist'; } See more information on the docs. A: To check if a folder exists you can use Yii::getAlias('@frontend/web/unbundles/test/',false). This will try to find folder "unbundles" with name "test" in frontend/web/ folder. If folder or folder folder named "unbundles" do not exist you will get such error in your exception handler. If you know exact name of folder you can search it like this Yii::getAlias("frontend/web/unbundles/
