• A Vast World Full of Excitement A vast world where open fields with a variety of situations and huge dungeons with complex and three-dimensional designs are seamlessly connected. As you explore, the joy of discovering unknown and overwhelming threats await you, leading to a high sense of accomplishment. • Create your Own Character In addition to customizing the appearance of your character, you can freely combine the weapons, armor, and magic that you equip. You can develop your character according to your play style, such as increasing your muscle strength to become a strong warrior, or mastering magic. • An Epic Drama Born from a Myth A multilayered story told in fragments. The world still seems to exist, the story hasn't jumped from arc to arc, we still can make our own history and have some kind of "one-time" story that really ends the way I would have wanted it to. So I hope to see less endings and more plots. It's on the final gantages. It's not a new plots of the final gantages. It's not a new plots of the fin
