13 Jul 2011 - Gemvision Countersketch Studio 1.2 is a multi-software system used to preview, analyze and design jewelry. It includes a host of. Gemvision Countersketch Studio 2.0 is a Retail Version of GemvisionÂ . Countersketch is available for personal, online, retail, wholesale or. Get Started - Gemvision Countersketch StudioSynthesis and evaluation of anti-platelet effects of N,N-dialkyl-N-3-iodo-1-(aryl)-2-piperidinyl amines. A series of N,N-dialkyl-N-3-iodo-1-(aryl)-2-piperidinyl amines was synthesized and their effects on platelet aggregation were studied. N,N-dialkyl-N-3-iodo-1-(2-pyridinyl)-2-piperidinyl amines (1-5 and 7-8) exhibited much stronger antiplatelet effects than N,N-dialkyl-N-3-iodo-1-(2-pyridinyl)-2-pyrrolidinyl amines (6,9 and 10). 1,3-Bis-(2-pyridinyl)-1,2-diamine was used as the lead compound and the structure-activity relationships are discussed.Q: How to create paginated list, where elements are separated by an image? I have an image that acts as a separator in between two rows (each row will have an image, and every 10 items, a new row appears), and I want to create a paginated collection. How do I do this? I have tried paginate(10).per_page(10) but it does not give me the expected results. The separator image is not on the bottom of the page and is not on top. I also tried to modify page by doing = 2 + offset(10). A: You could have a model with a position value, maybe initialised with a value of -1, and a route called

after_success. On the after_success route you get the position value, and use it to position the image accordingly. Controller def after_success @position = params[:position].nil?? -1 : params[:position] end Template
