Now if you would like the hprof files too I can go ahead and post those in there for you. A: Because you say the results are somewhat consistent, this may suggest the file is actually corrupted. More significantly, the hprof files can help you to find out what is causing the issue (or even why it even exists). I suggest you run a file repair tool to see if you can fix the problem. That could be ddrescue for linux or the much more convenient of Windows Disk Drill. To repair a hard drive, you follow the instructions for most hard drives, and in your case, it is: Start Disk Drill Click Repair Disk Click Scan You may get a progress bar at this point. Your drive should now be fixed, and hopefully the results show no further problems. A: The best thing you can do is to just format the drive and start fresh.

The sooner you do that, the more likely you are to get a better result. Tuesday, August 13, 2007

Looks like I have had this posted and forgot. Which is a sad thing because I was going to tell you about the radical groups I met that I had been working with in an effort to bring freedom back to the West Bank. You see I just got out of the Middle East yesterday and the first thing I saw was the news of the Intifada. I wanted to reach out to people there in some way because here I was living in the West and could easily get on an airplane and be there just as easy as anything. Unfortunately I only got to Israel for a night and didn't get over to the West Bank. I was going to give it a shot the next time I was in the area. Well there are groups here in this country that are just as radical as these people you saw yesterday. They hate America with a burning passion. The problem is we have people that have grown up under American influence, money and ideas. A lot of times I see people that grew up with that foundation and then they went somewhere else and lived there for a while. The average American is dumb. And if I can put it in a statement as a generalization I will state this, How dumb is the average American? How dumb is the average American? How dumb is the average American? In the whole world, how dumb is the average American? So what do you do with that
