ACDL Â® is a registered trademark of the Association of Chinese.Shop Smart, Shop Easy Shop Smart, Shop Easy SHOP EASY, SHOP SMART Sierra You can shop with confidence knowing that Sierra is the premier brand in the firearms industry. We've been designing, making and selling the best handguns, rifles and shotguns for over 28 years. When it comes to high-quality, affordable handguns, you'll know exactly what you're getting. When it comes to firearms accessories, you'll know what you're getting, too. Outfitted with features that may take your shooting to the next level, our revolvers, rifles, shotguns and semi-automatic handguns bring the best of everything to any game. We strive to be the premium choice in affordable firearms and accessories. So, whether you're a hunter, a sportsman, or just looking for the best bargains, Sierra is the brand you want to be your firearms or sporting goods. We have a variety of upgrades available to help make your firearm more versatile. Our quality, custom rifles feature custom and after market barrels, choke tubes, laminates,

handguards, stocks and muzzle brakes to expand your game beyond the scope of a standard rifle. Our well-made handguns are built on a tradition of quality that you just won't find anywhere else. Shop in confidence knowing you're always getting the best.Q: How to determine if a number is in the list of a particular category in VB.NET I have a list of categories and also a list of numbers. How do I determine if a number is in a category. For example: Categories = {Category1, Category2, Category3,...,CategoryX} Numbers = {5, 6, 7,..., 18} If the number I receive is in category X, do something. There could be all kind of categories so I need to know if the number is in any of them. I'm a VB.NET beginner and I'm not sure how to do that. Edit: I would assume that a loop would be better than an If-statement. A: Here's one option using LINQ... First define c6a93da74d
