the credentials to their account. typically, they will send an e-mail or sms to the user to ask them to reset their password.

obviously, the best method to avoid both stealth and owners mode is to stop sharing your instagram username and password with anyone. remember, you are the only one who should control your instagram account. it does not really matter whether you think you know how to protect yourself, because you can never be too careful. you can avoid being a victim by changing your instagram password every once in a while, not sharing your password with anyone, or using the safest passwords you can think of. changing your instagram password is a good idea if you use the same one for other accounts too. since both owners mode and stealth mode work the same, you can simply do one or the other depending on what is more convenient for you. if you want to hack an account, you only need to know the
