journal -1895-2009.rar i want to read a txt file from a directory which contains m3u files. The
directory i want to read is usually in form \$musicpath\somepath\somepath\... The problem is that
the txt file(list of songs) is located in a different path then the directory. I'm trying to use win32api.
But my code can't find the files in the directory with their full path. from win32api import * import os
inpath = r"E:\Music\songList.txt" outpath = r"E:\Music" os.chdir('E:\Music') listdir =
os.listdir(inpath) for x in listdir: try: shutil.move(x,outpath+"\")+x) print "Song read success", x
except: print "Song not read" Thank you for your help A: I was able to solve the problem. Thank you
anyway: from win32api import * import os
