Simatic EKB Install 2012

How to use SIM EKB Install 2022 11 27 for Siemens Software

SIM EKB Install is a software that allows you to activate Siemens software products such as TIA Portal, WinCC, STEP 7, etc. without using a license key. It is developed by plc.uz.ua and updated regularly to support the latest versions of Siemens software. In this article, I will show you how to use SIM EKB Install 2022 11 27 for Siemens Software.

Step 1: Download SIM EKB Install 2022 11 27

You can download SIM EKB Install 2022 11 27 from the link below[^2^]. It is a zip file that contains the SIM EKB Install.exe file and a folder with license files for different Siemens software products.

Step 2: Run SIM EKB Install.exe

After extracting the zip file, run the SIM EKB Install.exe file as administrator. You will see a window like this:

Select the Siemens software product that you want to activate from the list on the left. For example, if you want to activate TIA Portal V18, select "TIA Portal V18". Then click on "Install" button on the right.

Step 3: Confirm the installation

A confirmation window will pop up asking you if you want to install the license file. Click on "Yes" to proceed.

A message will appear saying that the license file has been installed successfully. Click on "OK" to close it.

Repeat steps 2 and 3 for any other Siemens software product that you want to activate.

Step 4: Enjoy your activated Siemens software

Now you can run your Siemens software without any license restriction. You can check the status of your license in the "License Manager" tool of your Siemens software. For example, in TIA Portal V18, you can go to "Help -> License Manager" and see that your license is valid until 2099.

Congratulations! You have successfully used SIM EKB Install 2022 11 27 for Siemens Software.

Disclaimer

Please note that SIM EKB Install is not an official Siemens product and it is not supported by Siemens. It is a third-party software that may violate the terms and conditions of Siemens software license agreement. Use it at your own risk and responsibility. I am not responsible for any damage or loss that may result from using SIM EKB Install.

Tips and Tricks

Here are some tips and tricks that may help you use SIM EKB Install more effectively:

- Before using SIM EKB Install, make sure you have installed the latest updates and service packs for your Siemens software. This will ensure the compatibility and stability of your software.
- If you have multiple versions of the same Siemens software product installed on your computer, you can use SIM EKB Install to activate them all at once. Just select the highest version from the list and click on "Install". For example, if you have TIA Portal V16, V17 and V18 installed, select "TIA Portal V18" and click on "Install". This will activate all three versions.
- If you want to uninstall or deactivate a license file installed by SIM EKB Install, you can use the "Uninstall" button on the right. This will remove the license file from your computer and restore the original license status of your Siemens software.
- If you encounter any error or problem while using SIM EKB Install, you can check the log file in the same folder as the SIM EKB Install.exe file. The log file contains detailed information about the installation process and any errors that may occur.
